TO WHOM IT MAY CONCERN

We hereby certify that our product ranges LACTIC ACID 80% complies with the Regulation (EU) No 1169/2011, do not contain the allergens listed in Annex II, and do not contain ingredients derived from any of the allergens identified by FALCPA (The Food Allergen Labeling and Consumer Protection Act US). In addition, we comply with the US (21USC 321.201) from the FDA.

Our supplier uses lactose for the manufacturing of some products. Nonetheless, cross-contamination with all other ranges is avoided due to the availability of the dedicated line and proper training of personnel. Cross-contamination with other products from this range is also avoided due to proper cleaning and training of personnel.

In addition, our supplier use sulphites for water treatment. Nevertheless, they guarantee that the level of sulphites is below 10 ppm in the water. Cross-contamination is avoided as the product is not used in the manufacturing site, but in the utilities facility and the personnel received proper training.

No cross contamination may occur until the products have left our warehouse and as long as the packaging remains closed.
